

DAB/DAB+ RECEIVER SALES (INCLUDING LINE FIT AUTOMOTIVE) 2008 – 2022

Sources: GfK* GB (England/Scotland/Wales only), SMMT, JATO, WorldDAB analysis (United Kingdom automotive), Digitisation report 2022 carried out by Kantar (Germany), An estimate based on Digital Radio Survey Q1 2019 (Kantar Media), Nielsen Audio 2021 and The Electronics trade figures for 2022 (Norway), GfK Point of Sales DAB+ Fusion report, inclusive of market coverage estimation extrapolation, to represent 100% sales coverage. The report includes the following product categories: Audio Home Systems, Clock Radios, Portable Radios, Portable Media Players (up to and including June 2015 data), Radio Boomboxes, Receivers (up to and including Feb 2018 data) & Smart/Mobile Phones, December 2022 (Australia), Total new DAB+ enabled vehicle sales for 12 months to 31 December 2022, as sourced from VFACTS and Glass's Information Services Report, reported as a percentage of total new vehicles sold, as supplied by FCAI (Australia automotive), GfK Italia CAWI survey (Italy), GfK* 2013 – 2021 (Netherlands), JATO Dynamics 2022, DAB+ as standard 2013 – 2022 (Netherlands automotive), Ofcom Switzerland, GfK (Switzerland); Weer GmbH, Federal Statistical Office FSO (Switzerland), GfK* (France), JATO Dynamics 2022, DAB+ as standard years 2015 – 2022 (France automotive), GfK* 2013 – 2022 (Belgium), JATO Dynamics 2022, DAB+ as standard years 2015 – 2022 (Belgium automotive), GfK*, 2011 – 2022 GfK data for Denmark does not include Tuners and Car Radios and 2011 GfK data for Denmark does not include Clock Radio and Portable Radio (Denmark), JATO Dynamics 2022, DAB+ as standard 2015 – 2022 (Denmark automotive)

% NEW CARS WITH DAB/DAB+

Sources: GfK Italia CAWI survey (Italy), Estimate by national broadcasters and Digitalradio Norway, based on general info on DAB+ availability from each car importer. Currently no local official statistic is available to track DAB+ ratio in the Norwegian market for new cars. Cars without line fit DAB-radios are given retrofit solutions locally. The estimate includes private cars only (Norway), Weer GmbH (Switzerland), JATO Dynamics H1 2023. Figures show number of vehicles confirmed to feature DAB+. Some OEMs do not report DAB+ status, so actual figure may be higher (United Kingdom, Belgium, Croatia, Netherlands, France, Hungary, Austria, Denmark, Poland, Portugal, Romania, Spain, Sweden, Czechia, Slovakia, Germany, Greece), Total new DAB+ enabled vehicle sales for 12 months to 31 December 2023, as sourced from VFACTS and Glass's Information Services Report, reported as a percentage of total new vehicles sold, as supplied by FCAI (Australia)

All figures standard fit except Norway which also includes cars with DAB+ taken as an option. Figures show number of vehicles confirmed to feature DAB+. Some OEMs do not report DAB+ status, so actual figure may be higher.

TOTAL DAB/DAB+ NETWORK COVERAGE (% OF POPULATION) 2013 VS 2023
